

ON-FARM ROBOTIC SOLUTIONS

Dairy Farmers of America's (DFA) Member Savings Network has teamed up with DeLaval to provide exclusive discounts on world-class automatic technology solutions. DeLaval offers members a **10% discount** on select robotic products like their robotic feed refresher, sort gates and automatic calf feeders.

PRODUCTS INCLUDED:

- OptiDuo™ robotic feed refresher
- Sort gate
- Teat spray robot (TSR)
- Swinging cow brush 110V and 230V
- Calf feeder 1000S

TO START SAVING:

Additional information, including necessary forms and web links, are available on myDFA. After logging in, click the Member Savings Network link under the Member Services tab, and select the DeLaval page. Fill out the certificate and visit your local dealer to start saving.

For more information, call 816-801-6342 or visit delaval.com.

AUTOMATIC TECHNOLOGY SOLUTION OFFERINGS

OptiDuo™ robotic feed refresher

The OptiDuo robotic feed refresher helps improve productivity on the farm by refreshing feed to make it more appealing, while repositioning feed closer toward the bunk. The twin-spiraled rotating auger uses smart navigation to help ensure fresh feed is always available to your cows.

Features include: Built-in smart navigation system, safety bumpers that senses people or animals, adaptable to different types of feed, multiple speeds, indoor/outdoor charging station

Sort gate

The sort gate, combined with smart technology, provides a simple and economical solution to sort cows based on health check needs, groups or other categorizations with a low impact on cow flow.

Features include: Up to five directions per sort system, automatic sorting based on herd management system settings, which may help decrease labor costs, lower risk of injuries to handlers and animals

Teat spray robot

The teat spray robot automates the pre- and post-teat spray application during milking, which may help reduce labor costs and improving accuracy.

Features include: Consistent and accurate application, pre- and post-spray applications available, up to 99% spray accuracy, as fast as seven seconds per cow (514 cows per hour) capacity

Swinging cow brush 110V and 230V

The swinging cow brush provides top-level comfort while enhancing cows' natural grooming behavior to provide improved hide health, blood circulation, cooling and more. One brush efficiently works on up to 60 cows. Energy-saving technology stops the brush after 10 seconds of use and is durable for all conditions.

Features include: Pre-mounted for installation on walls or posts, removable head for easy replacement or cleaning, low energy consumption, improved cow care

Automatic Calf feeder 1000s

The Automatic Calf Feeder 1000S is an efficient and effective method to achieve intensive calf feeding. It offers the ability to manage and track the feeding program of each animal, while providing calves with consistent, nutritious feed.

Features include: Internet/cloud capabilities, consistent feeding routine, potential labor savings, ability to better control feeding costs
